

6516208744.txt

I want to urge the FCC to reject the NAB petition 04-160. I am disappointed that my government would even consider taking away my right to know about traffic and weather conditions that may affect me and my family's safety. I intend to make as many people aware of the situation through Medical Center Pharmacy, my store and place of employment in my community for the last 30 years.

Thanks'
